

Green Your Logistics through SmartWay

Greening your operations is today's critical priority. Your customers, employees, and stakeholders expect it.

There is one collaborative initiative available to tackle these challenges. It is called the SmartWay Program. SmartWay was launched by the United States Environmental Protection Agency (EPA) and has been run in Canada by Natural Resources Canada (NRCan) since 2012. This Green Initiative is a voluntary program that helps businesses get their products to consumers efficiently while keeping fuel costs and environmental impact at a minimum.

SmartWay encourages "Best Environmental Practices" in freight supply chains. Helping carriers and shippers benchmark their operations, track fuel consumption and improve their overall performance.

The DOT Directory

To participate and use the SmartWay Transportation Partnership logo, you must be a SmartWay partner in good standing – and this is where The DOT is there to help. The DOT is an end-to-end operational and technical solution to quickly register, meet and maintain compliance with the SmartWay Program.

The DOT offers simple, quick and affordable solutions for shippers of all sizes and complexities. Working directly with the SmartWay Team, The DOT resolves your burden to meet SmartWay's compliance needs with an automatic seamless and cost-effective solution.

Over 3,600 North American companies have already joined this collaborative partnership to reduce emissions in their logistics.

Join them.
